AGAINST

PARENTAL

ALIENATION

ABOUT US

We are PAPA (People Against Parental Alienation) and we are the world's largest support network for alienated parents and family members.

We are a hardworking team of volunteers who are passionate about the mental and physical wellbeing of both adults and children.

We offer free support and resources to all of our members who are victims of parental alienation.

We continually campaign for equal parenting and the assumption of shared care, in the best interests of the child.

We welcome anyone and everyone who shares our values to join us at PAPA.

OUR MISSION:

- To counter the family law industry by offering free support and resources.
- To promote equal parenting, in the best interests of the child.
- To create a presumption of equal parental rights and responsibility after separation.
- To force legislative change that removes the barriers that aid Parental Alienation.
- To create greater deterrents for false allegations and acts of abuse.
- To have Parental Alienation be recognised as a criminal offence.
- To raise awareness for Parental Alienation and minimise the negative affects of alienation.
